

## PROFILE

Meticulous Quality Engineer with over 15 years of experience in engineering teams and 20 years in the financial services sector. Proven expertise in cloud platforms, test automation frameworks, and building high-performing engineering teams. Committed to continuous improvement and bridging the gap between technology and business.

I also undertake a number of personal engineering projects, including iOS application development, API development, and YouTube content creation. Detail of these projects can be found via my website.
